

## Mobile Phones

Mobile phones are a part of modern society; however, as a school we have many concerns about their impact on your mental health, emotional wellbeing, attention spans and your learning. Therefore at Beverley High School we have developed a mobile phone policy which helps you to learn how to use your mobile phone in a responsible manner.

1. Phones may be used **before the start of the school day** (which officially starts at 8:40) and during your **lunch break**. However, you need to be **sitting down in your form room**.
2. Please **do not walk** around the school on your phone.
3. When you are not allowed to use your phone please switch it off and keep it in your bag.
4. Phones can be used at the **explicit instruction of a member of staff**.
5. Photographs and videos of people cannot be taken.

Please see the school website for more details about the mobile phone policy
